

About VendTek

VendTek Systems Inc. ("VendTek") develops and licenses transaction automation system software and supporting technologies focusing primarily in the prepaid telecom and financial services industries. VendTek's products provide infrastructure to service providers, retailers and retail distributors allowing them to distribute electronic products and services with increased efficiency.

VendTek's foremost product is its proprietary eFresh™ technology. eFresh has been deployed in North America, Europe, Asia, the Middle East and Africa. The first system was deployed in 1999 making VendTek one of the world's innovators and leaders in this business. VendTek also has extensive experience in self-serve and vending systems, smart cards and payment technologies.

VendTek was founded in 1988 and became a public company listed in Canada in 1999. VendTek has an international presence with offices in Canada, China and the U.A.E and customers in the Americas, Asia, Europe, the Middle East and Africa.

About eFresh

VendTek first introduced eFresh in 1999. Since then it has been continuously developed for new customers, new markets and new applications. Today eFresh is operating in Canada, the USA, China, the United Arab Emirates, and Sudan.

eFresh Web

Web reporting allow users to access a wide variety of information using a web browser such as Microsoft's Internet Explorer with no installation or setup required on their computer.

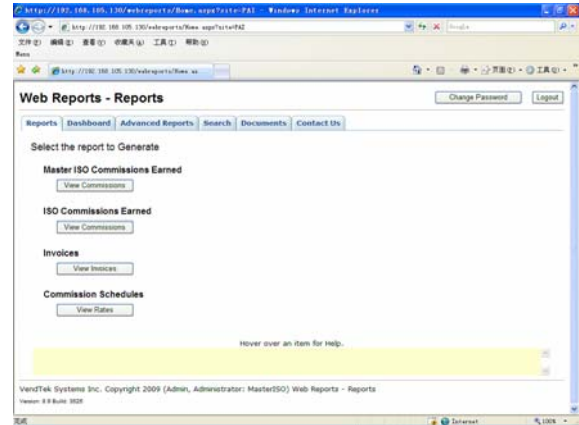

Web reports access is customized to allow merchants, sales organizations and eFresh network operators to view information that is organized for their unique needs.

Reports

Multiple reports can be run including the following:

- **Commissions**
 - details of commission earned on each sale
 - summaries of commission earned
- **Transactions**
 - details of each transaction
 - summaries quantities sold and total sales
- **Merchants**
 - last sale
 - credit status
 - contact information
 - view and download invoices
- **Terminals**
 - location of terminals
 - date and time of last sale
- **Products**
 - products available for sale
 - can include stock levels

Reports can be customized by each user through the selection of parameters. The results are displayed in your web browser and can also be downloaded for offline viewing and analysis.

Hardware Requirements

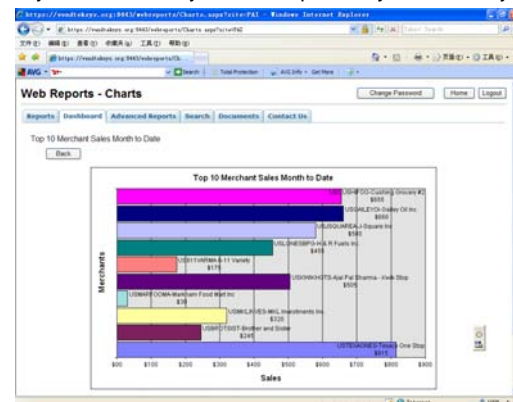

The requirements are minimal: any computer with a web browser and Internet access.

Installation and Setup

There is no installation and setup required on your computer. Any PC with an Internet Browser can use eFresh Web reports.

Just contact your eFresh network provider to obtain an username and password and the link for the web site.

After that you can access your web reports anywhere at any time.
